© Protect LLC

Limited Component and Performance Warranties
(for residential *active* mitigation systems only)

Limited Component Warranty

Protect LLC warrants the fan and Protect installed components against defects for a period of five (5) years from date of installation. This warranty does not cover any component that has been damaged or whose performance has been compromised by natural hazards or any modifications, alterations, additions or mistreatment. Customer is responsible for the cost of diagnosing and repairing cracks or other faults that did not exist or were not observable at the time the mitigation system was installed.

Limited Performance Warranty

So long as the fan and other Protect installed components are operational, Protect LLC warrants that an annual average of radon gas levels from soil gas, based on measurement from a one (1) year long-term test device provided by Protect LLC each year as part of this warranty, which is deployed in accordance with the protocols set forth in the US EPA document *A Citizen's Guide to Radon* (EPA 402-K02-006), shall be below the compliance level of 4.0 pCi/L. Should the result of any year-long measurement be in excess of the compliance level of 4.0 pCi/L, Protect LLC will perform the repairs necessary to the system in order to reduce radon gas levels below the compliance level. This warranty does not cover any system that has been damaged or whose performance has been compromised by natural hazards or any modifications, alterations, additions or mistreatment. Customer is responsible for the cost of diagnosing and repairing cracks or other faults that did not exist or were not observable at the time the mitigation system was installed.

These warranties are made specifically to the customer named below. Customer may transfer these warranties by notifying Protect LLC, in writing, of the new homeowner information within twenty (20) days of transfer of property ownership and payment of a \$25 processing fee. The fee payable to Protect LLC to conduct its annual service call and year-long test in order to maintain the Limited Performance Warranty is \$95 per year. Note: For a period of ninety (90) days from installation date, customer may transfer these warranties at no cost.

A warranty claim or transfer may be begun by contacting Protect LLC at 502-410-5000 or emailing warranty@protectservices.com. Please include the information contained below on all warranty claim or transfer correspondence.
